Education

University of Porto   *Porto, Portugal*
BSc in Chemistry   *Sep. 2018 - DNF*

Physics, Math, Statistics, and various branches of Chemistry like Organic, Inorganic, and Analytical Chemistry.

Self-Taught Frontend Developer   *Remote*
Explored passion for software development and transitioned career path   *2021 - Present*

HTML, CSS, JavaScript, TypeScript, and React.

Professional Experience

Steevanz   (Website)   *Remote*
Junior Frontend Developer   *Mar. 2023 - Jul. 2023*

Software consultancy. Took part in two Angular based projects:

- Sporting: Connected a RESTfull API to a backoffice app responsible for managing the club ticket line. This integration allows the app to perform tasks such as creating new events, generating ticket templates for each event, and assigning the appropriate seats at the venue.
- Maat: Onboarding project that involved developing a application to sell and rent artwork created by artists from Mozambique.

Yari Labs   (Website)   *Braga, Portugal*
Junior Frontend Developer   *Feb. 2022 - Oct. 2022*

Software consultancy. Took charge of multiple products, working with founders and clients to develop their MVPs and products. Most of the projects were Vue.js based. I've worked on:

- Dharma Network: In this in-house project, I contributed to the development of the main Dharma app using Vue.js and Tailwind CSS while exploring the world of Web3.
- Pinter: Created checkout system integration with landing page; enhanced CSS for multiple app modules.
- Cinematik: Implemented a responsive design directly on the main app built in Ruby on Rails using Action View.

Skills

- **HTML**: Advanced
- **Tailwind CSS**: Advanced
- **React**: Intermediate
- **Next.js**: Beginner
- **Git**: Beginner
- **CSS**: Advanced
- **Typescript**: Intermediate
- **RESTful APIs**: Intermediate
- **Bash**: Beginner
- **Angular**: Beginner
